## This Haircare Product Gave Me the Softest Locks Ever

I've been using the toner for about a week now and my hair is the shiniest, softest and healthiest it's ever been. My scalp is no longer an oil-producing machine and my ends aren't as fried-looking as they once were. And the best part is I don't have to change my haircare routine. The toner works with whichever shampoo and conditioner you love using. I've definitely found my dream hair-care product in Essential Rinse.
